

Amethyst Class Newsletter

A busy week this week as the children stood for House Captains and voted for their new school council – which was a great link to our Geography lesson about democracy this week! As well as our trip to the theatre, where they were all well behaved. All the children have really proven themselves as Year 6's this week and I cannot wait to see them all in their new roles as the term goes on.

In maths this week, the children were recapping rounding numbers up to 10 million to the nearest 10, 100, 1,000, 10,000, 100,000 and 1 million!

During English this week, the children researched Fair Trade and started to create their own non – chronological reports. It has been great seeing their independent writing and seeing how creative they can be with it.

French this week turned into months of the year – unfortunately I think the children may have got the hang of it a lot quicker than I have!

Home Learning:

Science (classification of living things) - Fungi (mould) Investigation Observation over time

What happens to a piece of bread if you leave it in a plastic bag for two weeks?

Describe your findings.

Keep a daily record of any changes or mould development. Present your findings however you choose: photographs, report, graph, chart etc.....

Mathletics – Set weekly (Friday – Friday)

TTRS

5 times a week reading (signed at home please).
