Our learning this week...

How Can We Make Life Fair?

British Values/PHSE

Our topic learning this week has focused around understanding democracy and how our government and parliament works. There has been great excitement as the children have split into groups to design their own political parties. They have made and presented their campaign speeches, mottos, logos and posters to the rest of the class.

Autumn Assessments – Maths and English

This week the children have been doing start of school year assessments (this is done in all classes) in year 6 we have been using past SATs papers. The children copied very well with these and had a positive approach to all the tests – this is fantastic!
