

# Amethyst Class

## Newsletter

### **Project: Why do people leave their homes?**

The children have been enjoying writing their reports on Evacuation and have found out lots of exciting information.

### **Maths**

We have been comparing and ordering fractions and learning how to add and subtract fractions with different denominators.

### **English**

The children have written letters as though they are Olive from our class book. They are quite hooked by the story so far.

### **Music**

The children are very much enjoying learning to play the J Sax with a music teacher from the music hub. She has been very impressed by their rapid progress – they have already learnt 2 notes! They will be coming home soon to allow them to do some practising at home (sorry!).

### **Science – Light**

Our science unit for this term focuses on reflection and refraction of light and will also move on to learning how the eye works.
