

Crystal Class News

9th October 2020

This week:

During the week in Crystal class, we have been focusing on developing our vocabulary. We have been building our dictionary skills to learn new words and their meaning. We have also been looking at the text of 'how to train a dragon', learning new words from there and creating a word bank for our story-writing.

In Maths, we have been sharing our board games. I am so proud of the creative and interesting times table games the children have managed to create. These games ranged from outdoor activities to board games and even card games. We have also been looking at place value, representing numbers in different ways (including money).

Once again, we have been hard at work with our art. The children have loved this and I am so impressed with how much progress they have made with their observational and their shading skills – well done Crystal Class!

The children have also been developing their throwing and catching skills of large balls within PE. We have learnt different passes such the chest, bounce and shoulder pass. The children have been building their accuracy with these.
