

# Crystal Class News

6<sup>th</sup> October 2017

## **Welcome to Crystal Class Newsletter:**

I look forward to seeing you all during parents evening next week when we can discuss how your child has settled in to year three. On Monday, we will be setting off to Cadbury world at 8:15 so it would be really helpful if the children could turn up at 8:00 to ensure we are ready on time. Please can you ensure that your child has a packed lunch for the trip – thank you.

### **Learning this week:**

Maths: We have been developing our carry over in column addition and have looked at the importance of laying out the sum in our partition columns. Some of the children are working on their problem solving and this will continue to develop for all members of the class.

English: Now we have completed our story plans, we are now starting to write our stories. The children are incredibly excited to write their stories and we are using are WAGOLLs to up-level what we have written.

### **Project: Where does our chocolate come from?**

Since our berry walk, we have been looking at the different ways seeds are dispersed. The children have been classifying and researching seeds according to the way they travel and we are now looking at the life cycle of a flowering plant. This will be very helpful to understand how the cocoa bean grows.

**Next Week:**

English: Continuing with our stories.

Maths: More problem solving and subtraction.

Project: School trip to Cadbury World and Scientific investigations on how seeds grow.
