

# Crystal News

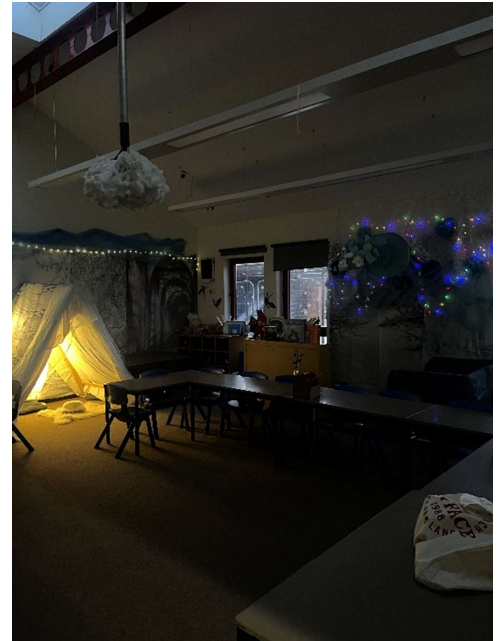

A short, busy week back in Crystal class!

The children were excited to come in and find a dragon in our classroom on Wednesday. We then enjoyed launching our new project 'Where will it take us?' with our WOW day. We looked at different dragons' types

before designing a dragon egg to paint and decorate using glue guns. We then went to hunt for the dragon egg letters to unscramble and discover the name

of our key text, *The Snow Dragon*. In the afternoon we completed our eggs and made paper plate dragons to display in our classroom.

We also made a start on our new Maths topic- Perimeter and measuring Perimeter of shapes. In English, we are reading the story of *The Snow Dragon* in preparation to write our own narrative and in

science we have started to look at light and dark! Termly homework will be set next week.

Have a lovely weekend. Miss Hurford and Miss Ali

## Important notices

Our school trip to Edward Jenner Museum is coming up soon! Please ensure payments are made through Scopay asap.

Please ensure spelling books are in each Wednesday so the children can stick in their spellings with Miss Ali.

Reading books continue to be in everyday and they will be ticketed on Fridays.
