

# Crystal Class News

9<sup>th</sup> March 2018

## **Welcome to Crystal Class Newsletter:**

Just to remind you that it is the school trip is on Monday 19<sup>th</sup> March. Children are expected to wear sensible shoes and their school uniform. The children need to bring a packed lunch and a waterproof coat.

### **This Week:**

This week, we have been outwitting the infamous Minotaur. The children were set a challenge to create and build a Minotaur trap, using magnets as a tool to help trap him.

We had lots of amazing creativity when designing the traps and we soon realised that we may need to adapt our plans when actually building them. Every group was successful in capturing the beast and the children could explain how the magnetic force supported them.

Laurie even found a different way to carry the tools – very efficient Laurie.

We have been creating amazing cave art, using pastels and charcoals. The children have been developing their techniques and it is amazing to see what wonderful art they have created.
