

# Crystal Class News

4<sup>th</sup> May 2018

## Welcome to Crystal Class Newsletter:

### **This week:**

**This week, we have been developing our observational skills in art. We have then learnt to critique each other's drawings and redraft with improvements. The children were able to recognise how to improve some else's drawing and learnt how to develop their own.**

**The children have loved their Aardman workshops and we now have a class full of Hognobs!**
