

Crystal

This week, we have been recapping addition and subtraction, mental and written methods, we have also been looking at estimation. Estimation can be really tricky but they persevered well. They are really showing off their mathematic skills during this recap week with their problem solving and reasoning (asking them why or how they know this answer.) In English, the children have written some beautiful alternative endings to our class story and used their imagination to create their own land. Very impressive! We have created the shell for our egg box packaging in DT and began putting together our two artists work to create our final piece in art, ready to sell afterschool on the 6th! The children worked on adding vowel suffixes er and est in spellings this week (11) and the focus for the next few sessions will be (the order may change depending on children's need):

10	Review adding vowel suffixes -ed, -ing, when doubling the final consonant
11	Review vowel suffixes -er and -est
12	Review -le at the end of words
13	Review -el or -il at the end of words

The last Rugby session is on the 17th of December due to Christmas performances.

Coming up next week Learning focused

Looking at instructions and how instructions are written, what is the purpose of instructions?
Angles and turning, anti clockwise and clockwise

Way to support at home (home learning)

Do some baking or an activity where the children need to follow instructions.
Practice writing instructions
What angles can the children see around them
Anti clockwise turns and clockwise turns

Key dates/notices coming up:

Reading records in on Fridays and mathletics to be completed

Spelling books to be in on Wednesdays
