

Crystal News

I hope you enjoyed the children's performance of their Christmas play this week. They have done me so proud with their fabulous singing and brilliant positivity throughout! We have also done lots of learning this week and become historians and engineers! The children got to make and test their own egg box designs! This required a lot of patience and craftsmanship to create a design that would protect their egg.

In history we have started looking into Ancient civilisations and what the four main civilisations were. Next week, we will begin to look at the timeline for Ancient Civilisation. We have moved on in Maths from addition and subtraction to looking at angles within 2D shapes and turns. In English, we have started looking at The Christmas Story after finishing Fantastic Mr Fox. We will then be writing a recount of this story.

Next week on the 14th of December, children will need to bring in a plate of snacks for our Christmas party in the afternoon. Please keep in mind this is in addition to their lunch.

Have a lovely weekend. Miss Hurford
