Crystal Class Newsletter

The children have returned refreshed and keen to learn after our half term break.

This week in English children have been learning about simple and compound sentences. They have practised using these sentences in their story writing and are building on these sentences by adding in adverbs and adjectives. We have also looked at spelling and using homophones in our writing and how to use them in the correct context. The children enjoyed using their imagination to create some very interesting sentences!

In maths we have continued to work on our mental maths skills. We have looked at three-digit numbers and how we add and subtract one-digit, two-digits and three-digits. The children have been encouraged to use their existing skills and knowledge in place value, number bonds and counting to support their mental maths development. Next week we are hoping to look at written calculations (column).

In Crystal class each child made a French knitted poppy to display at the church for Remembrance Day. The children thoroughly enjoyed making the poppies and the results were wonderful - they looked amazing! Thank you again to everybody who helped walk the children to the church. It is always great to have your support.
