

25th January 2019

Crystal Class Newsletter

At the end of last week we started a ten week course in Djembe drumming. The children thoroughly enjoyed this new musical opportunity and are keen to continue learning some new skills this week.

In maths, we have continued our work on multiplication and division, with a focus on multiples of 4 and 8. Next week we hope to move on to formal written methods of multiplication and division.

In English, we have explored the characters of *George* and *Grandma* from *George's Marvellous Medicine*. The children have produced word banks on each character and used this to write a character description. Their challenge was to try and include similes, adjectives and commas.

In science, we have been exploring different types of science enquiry. We have set up a weather experiment to compare the temperature in two different areas of the playground.

For your information

Homework is due on Thursday 14th February and will be shared with parents on this day from 3pm-3.20pm.

Please continue to read with your child (x5 in a week) and sign/initial to say you have read with them.
