

Crystal News

This week has been a busy week in Crystal class. In **maths**, the children have been looking at estimation to predict answers to addition and subtraction questions. They have also been looking at inverse calculations and fact families to build their knowledge on addition and subtraction!

In **English**, we have carried on our reading of Fantastic Mr Fox and the children have created some great writing pieces ready for when they construct a narrative next week! We have looked at how to include speech and character descriptions in our writing.

In **RE**, the children have been bread tasting ready to learn about the Holy Communion. They loved this and they were all brilliant at trying breads they weren't quite sure of!

In **Art**, we are learning about Jackson Pollock and have been looking at different techniques he uses when creating his art. This week we learnt how to create a background wash of different colours.

In **DT**, we are creating our own Egg carriers to replace current egg cartons. The children had to complete egg tests in order to see which packaging was the strongest and which was the weakest. We dropped them and weighed them down with books to see which ones stood the test!

Important notices

Next Friday is odd socks and spots day! Donations can be made online for children in need.

I have given out raffle tickets for the last week and this week for 5x reads!

Have a lovely weekend,
