

# Crystal

Happy New Year and a cold welcome back to term 3!

The children have been settling back into routines this week and cracking straight on with their new learning. We have spent a lot of this week introducing our new topic 'Where will it take us?' We will be learning all about Ancient Greece, Myths and legends, Mythical creatures and the geography of Greece. It's a very magical topic.

In maths, we have recapped our different types of angles and lines. We have now moved onto how to find the perimeter of shape. We have started by being given the lengths of each side and adding them up to find the perimeter. We will move onto measuring ourselves and finding missing sides next week.

In English, we have read our new story The Snow Dragon. The children loved how they could interpret the ending how they liked and we spoke about the different meanings that the ending could have. We will be writing our own versions of the Snow Dragon from a different perspective by the end of this block focusing on first person, description, tense and conjunctions.

In Science, we are learning about light and dark and PE we are learning gymnastics and Ball skills. Next week on Wednesday afternoons we will be starting Djembe Drumming lessons with a music instructor for 10 weeks.

Mrs Hillier will be off for a couple of weeks, and we can't wait to welcome her back already!

Coming up next week Learning focused	Way to support at home (home learning)
First person Perimeter using a ruler Conjunctions Tenses Geography of Greece	Practice writing using I, we, they. Practice measuring different objectives and talk about cm, mm. Discuss past tense and present tense
