

Crystal Class News

7th July 2018

Welcome to Crystal Class Newsletter:

This week:

This week, the children have been discovering mood, beat and rhythm within music. They have learnt how the beat acts as a heartbeat and that the rest of the music relies on it.

In Maths, we have revisited some of the maths that the children find tricky and we have made posters to help remind them how to solve problems.

In English, the children have been editing and typing up their farm animal descriptions as well as writing letters to you all for our school reports.

We have also had great fun redrafting our clay animals – even I couldn't resist. Here is mine and Mrs Sutherland's animals, the children's animals are a secret until the hoe down!
