9<sup>th</sup> February 2018

## **Welcome to Crystal Class Newsletter:**

And so we have finally reached the end of term 3. Christmas seems a distant memory and we have managed to cram so much learning in within 6 weeks. I would like to say a huge thank you for all the help you have given to your children, supporting them with home-learning, reading and much more. The children are fully engaged and loving our time travel theme and I can't wait to see what learning term 4 brings.

### **This Week:**

We have been finishing our 'Stone Age Boy' stories and I am so proud of the skills the children have been applying to their writing. These will be published on our website

In maths, we have been comparing and ordering fractions with the same denominator and some children have looked to compare mixed denominator fractions. This has then led us to learning about equivalent fractions.

We have also been finishing our programming as well as investigating magnets. The children have been so happy to have rugby lessons again... despite the cold.
