

Crystal

A busy week back to term 2 in Crystal class this week! We have hit the ground running, recapping addition and subtraction techniques in maths. The children have solidified these, and we are moving on to multiplying 2 digit by 1-digit numbers next week such as 18×3 . In English, the children have been remembering the story of George's Marvellous medicine by hot seating each other, creating character descriptions and writing a marvellous medicine poem in the style of Roald Dahl.

The children's skeletons look amazing, and they are all up on display on our classroom wall! Thankyou for taking the time to do these they are brilliant, and the children very clearly enjoyed creating them with you at home. In science, we have now moved on to plants and how they grow. In art, we are looking at our new artist Jackson Pollock who created drip painting and in DT we have looked at why we need packaging, ready to create our own.

Next week is Anti bullying week, The children are invited to wear odd socks on Monday, and our PE will be a special workshop for Anti bullying week. On Friday there is non uniform day for the friends of AH.

Coming up next week Learning focused

Writing an alternative ending to a narrative

- Writing another version of the medicine in George's Marvellous medicine
-

Multiplying 2 digit by 1 digit numbers. 17×4 , 14×3 , 16×8 , 15×2 this will then build to bigger numbers throughout the year such as 64×3 .

Way to support at home (home learning)

Discuss the story at home with the children, what other things could the medicine have done?

Practice breaking numbers up for example (17×4)
 $17 = 10 + 7$

Then you would do 10×4 and 7×4 and add the two answers together.

Practice times tables on ttrs

Key dates/notices coming up:

Reading records in on Fridays, athletics, ttrs and spellings to be completed

Anti bullying week Monday 10th, odd socks to be worn Monday. Non uniform day Friday!
