

Crystal Class News

20th April 2018

Welcome to Crystal Class Newsletter:

As we are still ploughing through learning to tell the time, could I please urge that you ask your children to tell you the time on both analogue and digital clocks.

This week:

The children have continued to learn about time. We have been comparing digital time to analogue as well as reading clocks with 12 and 24 hours on them. This is still quite tricky but with practise, we will get there.

We have also been timing ourselves in order to compare seconds. We have collected data from running races and skipping which we have then put into a table and graph.

In English, we have now completed our Newspaper reports and we are moving on with our story of Charlotte's web. In grammar, we have been converting the 'present perfect' using 'have' or 'had' to our sentences.

The children are all prepared for planting and we have created a Scientific Investigation to test how to grow plants the best. Let's hope this helps our sunflowers when we plant them.
