

Crystal

We had lots of fun dressing up for WBD this week! For World Book Day, we completed lots of activities that inspired our love for reading. The children paraded their costumes around the hall and we spoke about what our reading 'vibe' is. In class, we promoted book talk and enjoyment of reading by designing our own book covers, recommending different books to friends, designing our own bookmarks to use in our own books and reading in extreme places. They found some very interesting positions! The children were also treated to hot chocolate and biscuits whilst listening to an audiobook.

Other learning from this week included starting statistics in maths! The children have been drawing and interpreting pictograms as well as learning how to collect data in a tally chart. In English, we have had a big focus on grammar, punctuation and spelling. We have been particularly looking at past and present tense, making sure we are spelling words correctly with an ed ending and practicing our speech marks. Keep an eye out for next week's newsletter as I will be sharing information about swimming and end of term outcomes. Have a lovely weekend.
