

6th May 2022

This term our topic is Robots and we spent our Wow day inventing robot inspired games, watching the film 'The Iron Giant' and building cardboard robots to display in our classroom. Our writing over the topic will be based on the stories pictured below. We are excited about our class trip to UWE next week where we will be immersed in engineering and robotic activities.

Homework

As well as the termly homework project, Mathletics will be set on a Tuesday to complete by the following week. Spellings are on Google Classroom and will be tested on Fridays.

Have a lovely weekend,

Mrs Newcombe
