

Diamond Class Newsletter

This week in science, to investigate tooth decay, we conducted an experiment to see which drinks cause the most damage to the shell of hard-boiled eggs (the shell of an egg is similar to the enamel on teeth). It has been interesting to observe what has been happening to each one during the week and we will take the eggs out of the drinks on Monday to see the final results.

Over the last few weeks, we have been starting to learn the ukulele with Mr Davies from the Music Hub. It has been great fun so far and we have learnt three songs already. At the end of the 10-week block, you will be invited to a concert – date to be confirmed.

Dates for the diary:

- Trip to the Ashmolean Museum – Thursday 12th February.

Coming up next week - Learning	Way to support at home
<p>Next week in maths we will be starting our learning on fractions and decimals, beginning with equivalent fractions.</p> <p>In English, we will be planning and starting our own stories linked to the book Marcy and the Riddle of the Sphinx. We will be learning about creating suspense through our writing.</p>	<ul style="list-style-type: none"> • Read at least 5 times a week. Please ensure reading is recorded in the reading record books each week. • Mathletics • TTRS - regular practise is vitally important. In class we are currently working on the 6x table. • Spelling books will be sent home on Tuesdays this term with 6 words from the Y3/4 spelling list for children to practise. They'll be tested the following Tuesday.
