

# Diamond Class Newsletter

25.09.20

This week:

## PE:

We have started a new dance called 'Giraffes can't dance'. The children have been creating narratives through movement. They have explored different shapes and stretches to reflect how Gerald the giraffe moves.

In our games session we have been practising our throwing and catching with accuracy. We have done this through paired worked and finished it off with a competitive game.

## Music:

Due to our project being based around rainforests, we have been looking at how we can use body percussion to reflect the sounds of each layer of the rainforest.

## Science/geography:

This week we have focussed on the different plants in each layer of the rainforest through researching on the learn pads. They have extended their learning by finding other plants from each layer and thinking about why different plants are suited to the layer they belong to.

## Words of the week:

- Capitulate
- Defy
- Presume

## Reminders:

- Spellings have been set and there will be a test on them next Friday.
- Times tables need to be practised.
