HAPPY NEW YEAR

This week the children talked about looking at their lives being like a jigsaw and explored who and what were the most important parts of the jigsaw to them .They then went outside and used problem solving and team work to solve a giant floor puzzle .

WOW DAY

Our new project question is "FACT OR FICTION?", and we launched this through our WOW on Thursday .The children had great fun trying to solve the riddles in a "Dragon Trail" where they were required to collect pieces of a picture, which would then lead them onto finding a lost baby dragon. There was much relief when we discovered it- the children have called it Indigo .For the rest of the day the children made puppets and theatres to re-enact the story of the Snow Dragon – our text this week . The pictures show how they enjoyed the day.
