

Diamond Class Newsletter

In English this week, we have been learning all about Tutankhamun, sorting facts from opinions and writing fact files about his life. We have also started to learn about how his tomb was discovered thousands of years later. In our topic learning, we found out about the pyramids, how and why they were built, learning some fascinating facts!

In dance sessions, we have been building a performance with different sections linked to our Ancient Egyptian learning e.g. hieroglyphs, building sculptures or pyramids... We are hoping to have complete dances ready to share as part of our end of term project share.

Dates for the diary:

- Thursday 26th March at 9:30 – Ukulele concert, followed by sharing of learning from this term's project.

Coming up next week - Learning

Next week in maths we will be focusing on decimals, learning about tenths and hundredths and how they relate to fractions.

In English, we will be focusing on verb tenses and writing diary entries in role as Howard Carter after discovering the tomb of Tutankhamun.

Way to support at home

- Read at least 5 times a week. Please ensure reading is recorded in the reading record books each week.
- Mathletics
- TTRS - regular practise is vitally important. In class we are currently working on the 7x table.
- Spelling books will be sent home on Tuesdays this term with 6 words from the Y3/4 spelling list for children to practise. They'll be tested the following Tuesday.

This week's spellings are: experience, experiment, extreme, famous, favourite, February
