

Diamond Class Newsletter

26.01.18

Our learning :

RE : The children have been talking about life journeys with Mrs McAleese and brought in items which were important to them and which reflected significant times in their lives .They have been sharing these with the class .

RS talked about Diwali and showed the class a decoration used in this celebration in her family and MF showed us her first baby coat .

Computing :

One of our mini outcomes is to design a programme using “Scratch” and this week the children have been learning basic skills which will enable them to do this . Our digital leaders (who have been trained how to access this programme prior to these sessions), have taken their roles very responsibly and supported their peers wonderfully. “Scratch” is used extensively within schools to help children with programming and there are lots of resources that can be accessed online if you are interested to learn more.

DIAMOND DIGITAL LEADERS
