Diamond Class Newsletter

We had a wonderful World Book Day on Thursday this week, sharing our favourite books and characters, listening to stories and playing some Quidditch as part of our magical theme.

Coming up - Learning

In maths, we will multiplying and dividing by 10 and 100 including decimals, applying our understanding of tenths and hundredths.

In English, we will be writing news broadcasts about the discovery of Tutankhamun's tomb.

Way to support at home

- Read at least 5 times a week.
- Mathletics
- TTRS or other times tables practise.
- Spellings – these are now being sent home weekly to be practised before tests every Tuesday.
