Diamond Class

Our learning:

We had a fabulous trip to Westonbirt Arboretum on Wednesday . I am sure your children came home buzzing about all the learning they had been engaged in . The purpose of the trip was to explore food chains and understand and use the scientific language associated with this – producer,consumer,predator.The activities that reinforced this were hugely kinesthetic and very “hands on “ .

Hannah (the Education Officer for Westonbirt) commented how enthusiastic the children were and how lovely it was to see such curious children . She loved working with us and said that she hadn't had a class like ours for a long time . I was so proud of the children and their behaviour throughout the whole day . I would also like to say a huge “THANK YOU “ to all the helpers who came with us on this trip- we really appreciate you giving up your time to support us .

Here are a few of our memories:

Reminders :

- Please can you focus on helping your child learn their timestables. I am aware that the end of year expectation is that Y4 children will know them all to 12X and we will have a push on this over the next few weeks.
- Homework share is next Friday at 3pm – parents are invited to join us .

Mrs Moncrieff
