Diamond Class Newsletter

Linked to our class book *The Train to Impossible Places*, we have been designing our own 'Impossible Places'. This week, we started to use a range of different materials to make these. We will then apply our science learning on electricity to add circuits to have parts that light up, move and make noises.

Multiplication check

We have completed the Y4 Multiplication Tables Check! All children had a fantastic determined and focused attitude and approached the test with confidence. The results will be available in a couple of weeks. It is important that the children continue to practise their times tables so they remain secure in the lead up to Y5.

Key dates:

- M Shed and Bristol trip – Friday 20th June.
- Project sharing – Friday 18th July at 2:45pm

Coming up - Learning	Way to support at home
<p>In maths, we will be revising various fractions concepts.</p> <p>In English, we will be working on various grammar skills linked to our class book <i>The Train to Impossible Places</i> before writing diary entries in character.</p>	<ul style="list-style-type: none">- Read at least 5 times a week.- Mathletics- TTRS or other times tables practise.- Spellings
