Festival of Youth Dance

In February we will be taking part in the Festival of Youth Dance (more details to follow). In the lead up to this event, Sarah-Jane, a street dance teacher, will be teaching us two dances which we will perform. We have had our first two lessons which have been challenging but fun! On Monday we also had the opportunity to take part in a Diwali dance workshop!

In English this week we have begun to write our own stories based on Harry Potter which has caused much excitement! I am very excited to read the finished pieces over the next couple of weeks.

Our Maths learning this week has focused on multiplication, learning the short multiplication method and using our times tables facts and corresponding division facts.

In preparation for Christmas we have begun researching and planning our Harry Potter themed sweet products in groups. We will then be combining our computer skills, Science, Maths and DT learning to produce packaging, labels, posters and actual sweet products to be sold.

Reminders:

- Continue to practise times tables – it is definitely making a difference!
- Read at least 5 x a week
- Mathematics homework
