

Diamond Class Newsletter

23.10.20

English:

This week we have been learning about direct speech. We have done this by imitating

Kensuke's kingdom through role play and looking at how to punctuate direct speech through written work. The children then went onto innovate Kensuke's kingdom by changing a character in the book; they wrote a character description using their

expanded noun phrase knowledge.

Maths:

We completed a rainforest project, whereby the children had to create a 3D rainforest by applying lots of different maths skills. The maths skills covered included: place value, column addition,

multiplication, fractions, time, measurement, money and perimeter. The children thoroughly enjoyed this and created some fantastic rainforests.

Pe:

This week, we came to the end of our 'Giraffes can't dance' dance. The children put in a lot of effort and produced some creative dances.

Reminders:

- Spellings have been set, so please can you practise them ready for a test on the Friday after half term.
- I have set some Mathsletics tasks which should be completed by the Thursday after half term.
- Please make sure you read at least 10 times over the next two weeks.

**I hope you all
have a great
holiday, Miss
Chalmers 😊**
