# Diamond Class Newsletter

For some final practise of times tables before the Multiplication Check we had fun exploring factors of numbers on the playground with chalks.

During our science morning at KLB we had the opportunity to explore a variety of activities including: holding dissected hearts, creating the digestive process, making Cartesian divers and seeing explosive experiments. It was a fantastic morning!

## Key dates:

- Multiplication Tables Check window opens – Monday 2<sup>nd</sup> June.
- M Shed and Bristol trip – Friday 20<sup>th</sup> June.
- Project sharing – Friday 18<sup>th</sup> July at 2:45pm

## Coming up - Learning

In maths, we will be revising calculation methods and solving problems applying them.

In English, we will be working on various grammar skills linked to our class book *The Train to Impossible Places*.

- Mathematics
- TTRS or other times tables practise.
- Spellings
