

## Emerald News

In **English** we have spent some time finding out interesting 'did you know' facts about gorillas. We have used all of our gorilla knowledge and our interesting facts to plan and write our own fact files.

In **Maths** we have continued our learning about measures. We have been measuring length and height and using the correct words to compare these; longer, shorter, taller. Hopefully the children are beginning to move away from using 'bigger' to describe length or height. We have begun to look at measuring weight and will be using the words heavier and lighter to compare these.

In **PE** on Fridays we are learning about bat and ball skills, this was us last week enjoying our PE lesson on Red Nose Day.

Have a lovely weekend,

Mrs Grainger
