

Emerald Class Newsletter

5.1.2018 – Term 3

What have we been learning?

This week the children enjoyed their WOW day on Tuesday in the circus and watching a special gym performance showing off some acrobatic moves. We had a lovely time practising some circus skills and creating performances in groups. This is the first step for our learning circus performance at the end of term 4.

The children have created wonderful descriptions using their senses of what is inside their magic boxes. Throughout the week Emerald have created their own aerial maps and gave directions using North South East and West to help others to get to the treasure chest.

Next week

Next week the children will be starting to understand the concept of multiplication and will be exploring the history of the circus.
