

# Emerald News

This week the Emeralds have been enjoying the spring sunshine, especially when everyone was allowed to play on the field!

Last Friday we had a super **Art** lesson outside with Ruby class, working in teams to make dragons using the playpod scrap. We got lots of things out and had to work with different friends to make our dragons on the playground. We photographed these and will be using them next week in Art to create a montage.

In **English** we have been looking at formal Standard English and subordinating conjunctions. We've been applying our skills within letter writing – you can look out for a special letter coming home to you soon.

In **Maths** we have been bringing our multiplication and division methods to solve word problems, missing number questions and find fact families. Do keep up with learning set on Mathletics to support our class learning as well as fitting in short regular bursts on TTRS to build recall further. In year 3 the expectation is to know 2, 3, 4, 5, 8, 10 times tables.

Date to remember:

Term 4 home learning is due in on **Monday 28<sup>th</sup> March**, ready to share in class on the Tuesday.

**Wednesday 6<sup>th</sup> April, 2.45pm** - join us for our end of project outcome to see our fantastic learning.

Have a lovely weekend, Mrs Grainger.
