

## Emerald News

Over the last couple of weeks the children have been very busy. Last week the children experienced their WOW day. There was a hunt in the wood for pictures linked to the learning we will be exploring this term. Then the children designed their own suitcase to help us travel and go on different adventures. During the afternoon some children watched the Paddington film and others watched a cartoon of Paddington Bear's adventures.

The children sent letters last week in response to Paddington's letter. We discussed what an address was and it would be great if you could show or share your address with your children. Over the weeks we have been exploring shapes, 2D and 3D. We have discussed names and properties like edges, sides, vertices and faces. The children have been trying to spot different shapes around the school so it would be great to encourage the children to do this at home.

It has been interesting listening to the children's ideas about materials they see around them. We have been distinguishing the difference between an object and material. Next week we will be looking into the properties of those materials.

Over the next couple of weeks, we will be using money in maths so please allow your children to come into contact with coins and notes.

A small Paddington Bear is taking it in turns to come home with a child in Emerald, it would be great to see a photo of the children with the bear doing something together either at home, or club or an adventure somewhere. It can be emailed to me or printed off to bring in.

**Miss Tyler** 😊
