

Emerald News

We started this week with the launch of the 'one step at a time' walking challenge with 3 laps around the field on a bright, sunny Monday morning!

English we have started our learning about non-fiction books by spending some time sorting our book boxes and looking for the clues of non-fiction. After sharing a Gorilla non-fiction book we labelled a gorilla diagram and have then used these to write descriptions using the joining words 'and' or 'but' in our sentences.

In **Maths** we have started our learning about measuring length. The children have been comparing length of different objects using the words longer and shorter. We have started to look at rulers and meters sticks and will continue this learning next week.

With the Spring weather we took our **Art** learning into the outside classroom this week. We collected interesting leaves and spent some time sketching these in our books, we were focusing on details and drawing what we could actually see not what we thought it would look like. Our sketches will help us to plan a leaf printing block next week.

In **PE** on Wednesday we are doing gymnastics, this week we were focusing on different rolls. The children tried a tuck, pencil and forward roll before making up short routines to show these.

Have a lovely weekend,

Mrs Grainger
