

Emerald News

This week we have enjoyed sharing our **home learning**, it's been great to see the different types of learning the children chose and everyone seemed very proud of their learning. Look out on our google classroom for some more photos.

In **English** we have been working hard to write an explanation of Igneous rocks using the knowledge we have learnt in Science. It's been a tricky piece of writing with lots of technical vocabulary but the children have worked hard to produce a great piece of writing.

In **Maths** we have been working on word problems, including some quite tricky multi-step problems. Please do keep up with TTRS practice as good recall and knowledge of these facts is so important.

In **DT** we made our first lever this week as a practice for our mini-outcome piece of work. We used our skills of measuring and cutting accurately following the guide to help us with this.

Best wishes,
Mrs Grainger
