

Emerald News

This week in Emerald class has felt very creative and we've enjoyed lots of great learning together.

In **Art** we have been learning about the artist Jackson Pollock. This week we enjoyed trying out three different techniques in his style of not touching the paper with a brush. We dipped and dragged wool, used pipettes and straws to blow paint and created splatters by tapping our paintbrush above the paper. We will be thinking about our preferred techniques and the affects we can achieve when we create our final pieces soon.

If you have any men's shirts that you're able to donate to school we would be grateful for a couple more to use as big aprons!

We have been enjoying our weekly **Let's Sing** sessions led by specialist music teacher, Sue. This week we impressed with our clapping patterns and great enthusiasm in all of the songs. We are hoping to record some of our songs to be able to share with you on Google Classroom soon.

In **Maths** we have been learning about fact families for multiplication and division facts, using our resources to help us work them out and beginning to apply our knowledge to word problems.

Don't forget new Mathletics is set every Monday and relates closely to what we are doing in class.

On **Monday 11th October** we are having a cricket experience so the children will need to wear their PE kit that day.

Have a lovely weekend.

Mrs Grainger
