04.03.22

What have we been learning?

It has been a busy first week back in Jet Class. In maths, we have been learning all about ordinal numbers and in phonics, we have been applying our phase 3 and 5 sounds to read real and nonsense alien words.

We have been scientists this week exploring and investigating everyday materials and their uses. In Art we have started our new mini outcome 'What is in space?' exploring the abstract artist Peter Thorpe and his amazing space paintings. We chose our favourite pictures and discussed the patterns, colours and shapes Peter Thorpe used.

In DT, we have started to add the detail and features to our hand puppets using a variety of materials including goggly eyes, felt, straws and sequins. They are looking amazing!

We all loved dressing up for World Book Day and enjoyed showing off our costumes during our assembly parade. As part of World Book Day we wrote our own book reviews all about our class text 'Toys in Space'.

Next Week

We will become poets in English, composing our own space shape poems.

In maths, we will be learning all about fractions of shapes and quantities, focusing on $\frac{1}{2}$ and $\frac{1}{4}$.

Our P.E this term will be developing our balls skills in games and our movement and rhythm in dance.

In art, we will begin to create our space backgrounds using printing techniques with sponges and paint.

Home learning

Learning has been set on Mathematics focusing on fractions. Please support your child to complete this learning this week.

Thank you.

Important dates:

Friday 18th March - Red Nose Day
Friday 1st April (pm) - End of project outcome -
Coffee morning and learning exhibition for Jet class.
