What have we been learning?

This week, we had lots of fun doing practical shape challenges to show our understanding of 2D and 3D shapes. We showed our knowledge by answering lots of questions.

We completed our final mini outcome:- who's in the news? We used the learnpads as recording equipment to record the interviews using the questions we created in English. We all then peer critiqued each other's interviews using warm and cool feedback.

Next Week

Our new project for terms 3 and 4 will be

'What will you be remembered for?'

We will be looking at famous engineers and inventors from the past.

We will be starting with a 'Wow' morning on Wednesday 8th January, but we will be keeping it a surprise about what we will be doing!!

Other News

Each child has 3 books allocated to them on Bug Club to complete over the holidays.

Please let us know if in the new year you will be able to help us as a parent helper with reading etc, we really do need some more helpers.

Finally we both wish you and your families a very Merry Christmas and a Happy New Year.
