What have we been learning?

We have had a brilliant week this week. We have been combining all of our learning about the Antarctic and the explorers we have researched, and have been using this information to plan and write letters.

In Maths we have been using our multiplication learning from last week and our times tables skills that we are building on in our weekly tests, to help us group to divide. We're really working on explaining our thoughts and drawing pictures to show how we got to the answer.

In Geography this week we have made a map, using points of the compass and including a key.

In Art we have been working with pupils from KLB to produce pictures of the Northern Lights using pastels. This week we experimented with the different marks we could make before creating our pictures next week.

Next Week

Next week in maths we will be developing our division and multiplication skills with lots of problems to solve!

In English we will be editing our letters home from the South Pole.

Tuesday marks e safety day. We have been exploring how to stay safe during our computing lessons and will look deeper at this.

Important information

Come and look at your child's learning – Tuesday 6th February and Thursday 8th February.

If you wish to contact Mrs Ashdown, her email address is Kelly.ashdown@sgmail.org.uk. We will put this on the website.

Please make sure you get your trip slip back into us and speak to one of us if you're able to help out on the trip.
