

## Jet Class Newsletter

Our Science learning this week has enabled us to get outside and enjoy the lovely sunshine! On Tuesday we set up our Science investigation to answer the question 'What do plants need to grow and be healthy?' We think plants need water, sunlight, soil and the correct temperature to grow into healthy plants. The children worked in small groups to pot 5 sunflower seeds in different pots. Each pot will not receive one of these elements, one will receive all, and we will observe the plant's growth over the coming weeks to see how this affects them. In Maths we have revised telling the time to o'clock, quarter past, half past and quarter to. In English we have been writing persuasive letters and in History we have been finding out the different ways in which Mother Teresa helped the needy.

Coming up next week	Ways to support at home
<p>In Maths we will be learning to tell the time to 5 minute intervals - please keep practising at home!</p> <p>In English we will be creating information posters about Mother Teresa</p>	<p>Reading x 5 a week</p> <p>Mathletics task: Reading time to the half hour Months &amp; Days of the week</p>
