## What have we been learning?

This week we have had a great week with our 'Wow' event. Our project for the next 2 terms is called 'What's on the royal menu?'. We started this on Wednesday by making our own jam tarts. In Maths we were looking at g/kg and used these measurements to help us make the jam tarts.

On Thursday we made cheese and cucumber sandwiches and then together with our jam tarts had a lovely afternoon tea party dressed up as queens and kings, all finished off with a touch of ballroom dancing!

### Next Week

In Science next week we will be starting our first mini outcome 'Will it grow?' we will be planting something special and observing it and taking photos over the term to see how it grows and changes.

### Other News

We have our multi skills event at KLB on Tuesday 30<sup>th</sup> April. We will be back in school for lunch, but please remember to send your child with a small bottle of water and a healthy snack in a small named bag.

We will also be recapping everything we already know about plants.

In Computing, we will investigate what and how algorithms work.

We will be recapping the properties of 2D shapes, including how many sides and corners they have in maths.

In DT, we are going to be making a class patchwork quilt. If anyone has any examples of a patchwork quilt their child could bring in to share we would love to see them. We would also appreciate any off cuts of material you may have at home which we could use to make our own patchwork quilt.

In your child's purple homework book, is some homework to research our current Queen Elizabeth, they will need this information to help with their writing over the coming weeks.
