What have we been learning?

This week we have been completing our Geography mini outcome "Who lives here", the children have worked really hard to complete a map using only physical features and developing their skills of using symbols to show what things are, as well as adding a key. We had great fun learning the points of the compass and were able to add a compass onto our map. I'm sure you will all agree from the photos how great the maps ended up being.

In maths we were set a challenge by Andy to interpret all of the data he gathered in Dinoland about the dinosaurs he had spotted and put into a chart. We used the data to answer questions.

We all had a fantastic time on our whole school trip to Berkeley Castle on Thursday. The children all behaved excellently well and we had great fun trying to spot all of our dragons made by the children from Alexander Hosea School.

Next Week

We will be creating our music scores next week using un-tuned instruments in our groups to create a piece of dinosaur inspired music.

Other News

Please complete the comprehension homework in the purple home school book, as we will be using this on Tuesday in English.

In English, we will be writing a detailed recount all about our whole school trip to the castle, concentrating on using time conjunctions and laying our information out in sections.

We will also be re-writing our own version of the Dinosaur poem 'Roar'. All the children have the original for homework this weekend. In our version of the poem we will be finding ways to use possessive apostrophes.

In Maths, we will be recapping all of the recent learning we have been doing around fractions.

Try to have a go at Times Tables Rock Stars as well.

It is parents evening on Wednesday 27th and Thursday 28th March, we look forward to seeing you then.
