### What have we been learning?

This week we have been using the text 'The Great explorer' to write our own short burst pieces of writing, creating a new problem for Tom to overcome. We created our own story maps and orally rehearsed our stories to each other.

In maths we have been telling the time, we have recapped o'clock, half past, quarter to and quarter past and have challenged ourselves with 5 minute intervals. We have applied our skills to problem solve and work out reasoning problems.

In science we have completed our fact sheets on polar animals and how they adapt to their environments to survive.

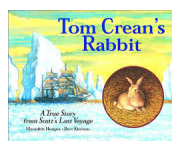

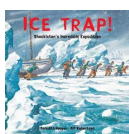

We had our second week of Yoga, which we loved!

### Next Week

Next week we will be developing our multiplication and division skills through calculations, reasoning and problem solving.

In English we will be participating in lots of talk for writing activities based around two texts, Ice Trap and Tom Crean's Rabbit. We will be hot seating, creating freeze frames and role play to support us with our writing over the coming weeks.

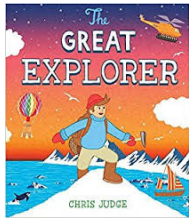

### Important information

We will be sending home new times tables books this week. The children will need to learn their 10 times table randomly to be tested the following Thursday.

Please ensure you sign in your child's home school book when they have read. Then they can receive their fiver each week. This can be their school book, bug club book, a book you have shared or when they have read on their own.

Open Afternoon dates – Please come in to share your child's learning journal with them on either of the following dates.

Tuesday 6<sup>th</sup> February 2018 @3pm  
Thursday 8<sup>th</sup> February 2018 @3pm
