What have we been learning?

We really enjoyed our visit from the Life Bus learning all about handling our emotions and feelings. In class we have been exploring Anti Bullying week thinking about respect, friendship and making good choices.

In DT we have been designing and labelling our own moon buggies for our mini outcome 'Will it work?' We have peer critiqued each others designs to help us improve and edit them. We have started to construct the frames (chassis) for our buggies by measuring and sawing squared section wood. We then joined our chassis using card triangle joins and glue guns. We have applied our fine motor skills and followed safety rules carefully ensuring we use the tools correctly.
