What Have We Been Learning?

It's been a very busy final week of term with the children continuing to work hard and try their best. Mrs Windmill popped into Jet Class this week to teach them for a session and she was thrilled to see how much progress they have made since leaving Topaz Class. She complimented them on their brilliant listening and she was impressed by their beautiful handwriting. Well done Jets!

In History and English this week we have been learning all about the Wickwar gas explosion that happened in 1987. We were lucky enough to have 'PC Nick Shaw' come into class and be interviewed by the children!! They were fully engaged in the story and it inspired some lovely drama and role play activities where the children went off to interview the policeman and residents of Wickwar about the explosion and film their interviews using the ipads.

In English, the children went on to use their knowledge and experiences to write a great recount all about this important part of Wickwar's history.

In PE the children are continuing to work on devising new games that involve throwing and catching skills. They have been creating rules and sharing these with each other to teach others how to play their new game.

Thank you to all of you for attending Parents evening this week. It was lovely to catch up with you all and share the great work your children have been doing in school.
