What have we been learning?

We have had such a super week this week. We have been learning all about Sir Ernest Shackleton and his amazing expedition to the South Pole.

In English we have had our drama hats on, and have been imagining what it was like for Shackleton's crew and what they thought and may have said to each other. Look at some of our hotseating pictures! We also demonstrated our amazing questioning skills to ask Shackleton how he would support his crew through their epic adventure.

In Geography this week we have been exploring using a compass. We played 'Shackleton says' following ship based directional instructions and then followed Shackleton's map across the South Pole. It was very fun despite the wind and rain!

Next Week

Next week in maths we will be continuing to develop our division skills by grouping, and linking this to our multiplication facts.

In English we will be planning and writing a persuasive letter to become an explorer.

In science we will be doing a blubber experiment to investigate how animals keep warm in the Arctic and Antarctic.

Important information

If you wish to contact Mrs Ashdown, her email address is Kelly.ashdown@sgmail.org.uk. We will put this on the website.

We are planning a very exciting school trip to the SS Great Britain for next term's learning. This will be on the 23rd February. Watch this space for trip details!

Come and look at your child's learning – Tuesday 6th February and Thursday 8th February
