What have we been learning?

This week we have been having a History week researching the famous Wright brothers and why they are remembered today. We read the text 'Taking flight' which told the story of the Wright brothers and we found out lots of fascinating facts. We recorded our facts onto planning sheets ready to use next week to write our own biographies.

We have been learning about verb endings in grammar. The children wrote verbs for photos adding -ing for present tense and -ed for past tense. We will be applying these verb endings in our Wright brother biographies

What amazing costumes the children dressed up in for World Book day! We took it in turns to guess which character each child had come and from which story. We looked fantastic!

Next Week

In English we will be writing our own biographies all about the famous Wright brothers.

In DT we will be looking closely at the flying designs of Leonardo Di Vinci to use as inspiration for our own flying invention designs.

In music we will be continuing to compose our hot air balloon flying music.

In maths we are going to be developing our multiplication skills counting in 5s.

Project Outcome

We would like to invite you into Jet class to help your child construct their own flying invention on **FRIDAY 27th MARCH 2-3.30pm.**

We will be busy over the next few weeks exploring existing products, testing flying inventions and carefully designing our own flying creations ready to make.

Home learning

The children have been set a three week home learning challenge to construct their own hot air balloon and bring it into school by 24.03.2020 for their music performance.

Phonic screening meeting in Emerald class - Friday 13th March @ 9am.
