What have we been learning?

We have come back into school after our Easter break, all showing a super learning commitment to being back. We all loved walking back into our classroom and seeing how it had changed and there were certainly many 'WOWs' as we looked around.

We enjoyed listening to 'The tale of Peter Rabbit'; we created a zooming in sheet to help us as we write our character description for Peter Rabbit. In Maths, we have started our learning on division by using both the sharing and the grouping method.

The highlight of our week has to have been our WOW day on Wednesday. We looked fantastic dressed up as a character from a Beatrix Potter story, and we started the day with a fashion show trying to guess who everyone was. We have started our bean investigation by planting our seed. We will now be observing this seed over the coming weeks to see how it grows. We have also planted our sunflower seeds- we are all wondering whose will grow the tallest!

We had some fun exploring different seeds and trying to guess what they are going to grow into. We also used our sense of 'smell' to identify different herbs and try to name them. We all had a favourite smelling herb.

We finished our afternoon off by watching the Peter Rabbit movie, which we all really enjoyed. We are now all ready to start our new project and complete our mini outcomes.

Next Term

In English, we will be completing the writing of our character descriptions on Peter Rabbit. We will also be reading our next Beatrix Potter book 'The Two Bad Mice' and will be using this book for our writing over the next few weeks.

In Maths, we will be continuing with our learning of division and solving simple word problems using our division skills.

In PE, we have started our two new units on Athletics and Multi Skills.

In History, we will be carrying on with our learning about the Victorian Era and will be finding out about schools and what they were like and comparing the similarities and differences to our school today.

Other News

This week's homework has been set for the children through Mathletics, we would like them to consolidate all the multiplication skills that we covered last term.

We are having our class school photo on Monday 26th April. NO PE KIT- School uniform needs to be worn instead.

This week in school for our spellings we have checked our recall of the common exception word spellings. These are the spellings that we need to know by the end of Year 2. Next week your child will be sent home with any spellings from these common exception lists that they spelt incorrectly when we have tested this week. You may notice that your child has had these spellings previously in Year 2, but as they have not retained the correct way of spelling these words, we will need them to consolidate and practise them. Thank you for your continued support.
